

I am Pradeepta Kumar working as a Network Architect in IT Professional Career, I have certified with Cisco Certificated Network Professional (**CISCO ID: CSC012418122**) & Microsoft Certified IT Professional (**MICROSOFT ID: SR6222160**). But it's very urgent needs to take action of this type of International Cybercrime in India. As you are heck busy in your work and wishing for spare your valuable time for personal meeting for consider about our International Cyber Cell NetworkCrime in online trapped in public. Needs urgent to take action our police departments in India. As I have been trapped this situation today.

As a Girl named Jessica Robinson citizen of Landon in UK, was trying to trap in social media with Matrimony site and started communication with whatsapp messenger since last month and trying to propose me for marriage and sending so many photos in naked personal communications. And as yesterday she trapped me that she is coming to India to meet with me and will go to Landon to settle the life there. As I have all evidence in proof all. Today one of fraud team in Delhi has called me that ur friend has reached at Indira Gandhi Airport and she is trying to convert her money for 3000GBP but as per Modi Govt rule its only allowed for 10K for money exchange. So all of her money has been arrested with exchange team and she should be need to make IMF Certificate for released from airport. And suggested this is the India Govt role. So suggested me that to she don't have INR then myself need to pay the 47500 rs for making the certificate soon. Then only she can released from airport.

As I have known everything this trap from starting itself but still I was trying to communicating with her knowing for to get more evidence about them to all members who is involved in this crime. Bez of I have given one of great Project for how to control the Cyber Crime to my Odisha Govt. As this project has been already proceed with Our State govt to Home to DGP departments now. So I needs more research about to control the Cyber Crime. As today I had discussed with our Delhi Airport Airline and Customs team and social media team as well and got all the information about the fraud fake peoples who is involved in this crime. Wishing ur needful action ASAP to save other peoples who will be trap in this crime.

In lastly got the all evidence of the team who has involved in this crime, the team has been using the fake website and SBI account and mobile no below:

SBI Acc Name: Ravesh Verma 20256478168, Pan no: CODPK9829Q, IFSC: SBIN0010433, Mobile no: 08800175493 and the WhatsApp No: +447405395000

I am attaching her WhatsApp communication and her photos which has been shared with me in pdf file. Wish to take the appropriate action soon to control the International Cyber Crime in India.

Time for Change and I am the Change, Proud to be an Indian...

Yours Truly,  
Pradeepta Kumar

**Cyber Terrorism:** Cyber terrorism is the disruptive use of information technology by terrorist groups to further their ideological. This takes the form of attacks on networks, computer systems, and telecommunication infrastructures. **Cyber Stalking:** Cyber stalking is a crime in which the attacker harasses a victim using electronic communication, such as e-mail or instant\_messaging or messages posted to discussion group of team. A cyber stalker relies upon the anonymity afforded by the Internet to allow them to stalk their victim without being detected. Cyber stalking messages differ from ordinary spam in that a cyber-stalker targets a specific victim with often threatening messages, while the spammer targets a multitude of recipients with simply annoying messages.

Cyber Security is the body of technologies, processes and practices designed to protect networks, computers, programs and data from attack, damage or unauthorized access. ... Elements of Cyber Security include: Application Security. Cyber Security analysts help prevent attacks through their expertise and knowledge of databases, networks, hardware, firewalls and encryption. They keep computer systems running smoothly, prevent the theft of financial and personal information, and block intruders from accessing and divulging proprietary data. Cyber security, also referred to as information technology security, focuses on protecting computers, networks, programs, and data from unintended or unauthorized access, change, or destruction.

Cyber Security involves protecting information and systems from major cyber threats, such as cyber terrorism, cyber warfare, and cyber espionage. In their most disruptive form, cyber threats take aim at secret, political, military, or infrastructural assets of a nation, or its people. Cyber Security is therefore a critical part of any governments' security strategy.

God always has more than enough and it is His desire and will be great pleasure will to meet with you sir, it's an honour or for me to it will have a great meet with you for my life. I do not know how to show my gratitude and cannot say enough good things about you. This is a very important and deep feeling and I have this feeling for you. I humbly thank you and you are the most special person in my life. I will think of you every time in my life.

I wish to be useful, and every kind of service necessary to the public good becomes honorable by being necessary. As I have walked with God in life and ministry I have grown to appreciate that every life is a gift of God, I must do the same.
